Subject: SeTSC Summary for Review & Reminder re: Memo feedback
Attachments: Sept_Summary_SeTSC_ForReview.docx; 2019-08-02_Koocanusa Se Thresholds Memo.pdf

Good morning SeTSC members,

Please find attached the proposed summary of the September 16 SeTSC meeting for your review.

Please send me any comments or proposed changes by **Friday September 27**

And a friendly reminder to please review the memo that was previously circulated on September 9 (also attached) and reply-all with any feedback by **Thursday October 3**

Thanks,
Mich

Subject: Memo for feedback & Doodle for late Oct meeting

Good afternoon SeTSC members

1. Memo for Review

Please find attached a memo from David DeForest that discusses and makes recommendations regarding the use of species-specific thresholds in level of protection alternatives.

Lauren and Sheldon are looking for your technical input on the attached and would appreciate your feedback about whether this approach would lead to additional scientifically sound predictions/results. For the sake of clarity - we are looking for technical advice, not policy direction. **Please review the memo and reply all with your comments by Thursday October 3.**

2. Doodle for response

We intend to schedule an additional 1.5hr SeTSC call for late October to further support prep for the November face to face discussions, targeting Oct 28-30.

Please fill out the following doodle poll by Monday Sep 16: <https://doodle.com/poll/z4a4mtqq4p54ttki>. As always, please be flexible and select as many options as possible.

I will be sending another email to the full group (experts & observers) shortly with next week's agenda and an update on the Lotic data.

Thanks,
Mich
